Subject: water rights application workload / backlog

Joe,

The information that Council Member Patrick Johnston requested at today's meeting regarding the size of our water rights application backlog can be found at:

http://www.waterboards.ca.gov/waterrights/publications_forms/available_documents/progress_reports/index.shtml

The two links at the top take you to monthly charts showing the application processing and pending petition workloads. Below that are monthly reports showing monthly progress in various water rights program areas. These charts and reports are updated monthly.

Please pass this information along to your Council Members.

Thanks for the opportunity to provide information to the Council. I hope it was helpful.

Les
